School registration

1. On **www.start21art.eu** you register your school using the registration code we sent you by e-mail. Enter this code in the empty field as shown in the picture below. After entering the code, click **“Continue”** and you will be taken to the page where you fill in your login details.

2. During registration, fill in every field marked with a red asterisk (*). E-mail and password – enter the ones you will continue to use to log in. All information about the **START21ART** competition will be sent to this e-mail.
 - **Title, Title for** – this is not required; registration will succeed without this field.
 - **First name, Last name** – the name of the contact person for your school.
 - **Phone** – we mainly use e-mail during the competition, but we often use the phone to speed up communication, so it is useful to enter it.
 - **Account number** – this is required if a prize is to be paid.
 - **Number of nominated students** – this number is only a guide based on student interest. If this number is not reached, only the students who have registered will take part, and the number can also be increased. A school may nominate at most 10% of all its students in the final (fourth) year. *(One nominated contestant for every group of up to ten students.)* After filling in the details, both consents must be ticked for the registration to succeed.

List of Students

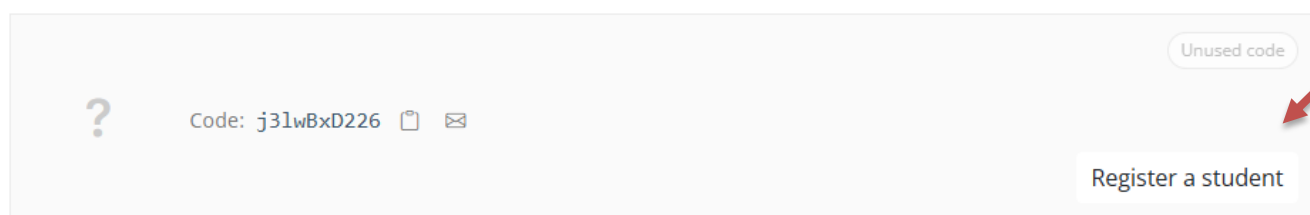

1. The school selects the students who will represent it and **assigns them the generated codes**. A **nominated student must be of legal age at the time of registration for the competition**.

2. You can easily send the code directly from the user interface to the student's email address.

3. After clicking **“Register a student”**, a page opens where the student’s details must be filled in. It is better, however, if the student completes this registration themselves, because they enter their own login e-mail and password. This account remains active **in the KUBIKUM register** even after the **START21ART** competition ends.

Note: Before approving the entry for the competition, please also check the student's profile. Verify that all provided details and the photograph are suitable for publication in the book and that the profile does not contain profanity, offensive or shocking material, or other inappropriate content. If necessary, you can contact the student directly using the "Send email" button in the profile preview to request edits or additional information.

- **Returned for revision**

The work was returned to the student for revision. **After making the required changes, the student will resubmit it for approval.** There is no need to open or review the work in the list until it is resubmitted.

Jury

1. If at **least one student is registered** at the school in the given year and a juror has not yet been assigned, a registration code and three buttons appear in the centre of the screen.

- **Register as a juror**

The school's contact person can register as a juror **using their existing account**. After registration, the juror role is assigned to the same account.

- **Register a juror**

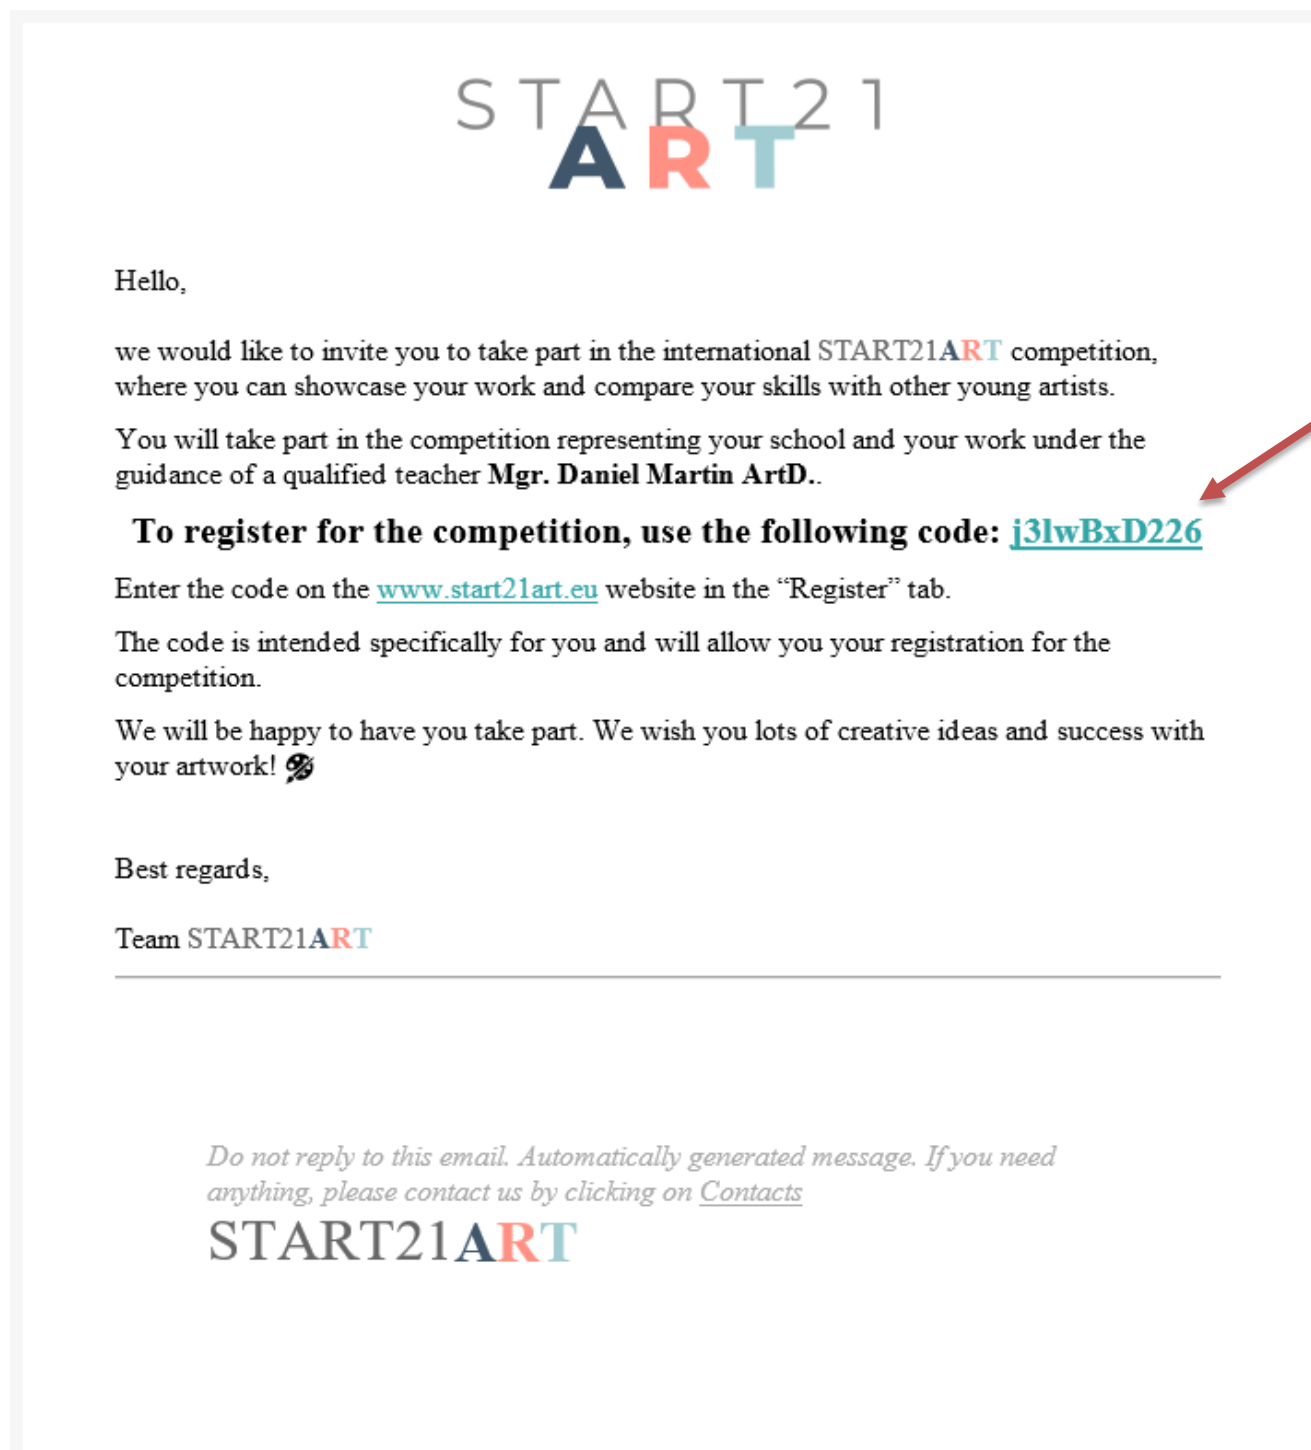

Here you can register **another person** as a juror. During registration, fill in their details, e-mail address and password, and confirm agreement with the conditions. **An activation link is then sent to the given e-mail address**, and they complete the registration through it.

- **Send invitation with code**

Enter the juror's e-mail address. **The juror receives an invitation with the registration code and information about the juror's statute**. They then complete the registration on their own. Until the juror finishes the registration, the registration code and the buttons remain available on the page.

Student registration

1. An e-mail with the subject "Invitation to the competition" will arrive in your inbox from your school. If you do not find it in your inbox, check the spam folder. In the e-mail, click the registration code.

2. After clicking the registration code, a page opens where you need to fill in all the details.
